Subject: ANOTHER Sewage Spill in Tega Cay

For the 3rd time this year and after YOU approved a rate increase for Tega Cay Water Services, there has been a sewage spill in the cove I live in on Lake Wylie that has resulted in a "No Swim Advisory" (see attached photos). My monthly bill has increased almost \$20/ month after the approval by the PSC for Tega Cay Water Services requested rate increase, but from my perspective my service has decreased. I live very close to the dam, so downstream residents of the Catawba River are being impacted by this spill also.

YOU as the government body of SC are responsible for ensuring this company is not polluting our lake and river AND ensuring a fair and reasonable rate is charged. At this point in time, you are doing neither! Had these events taken place during the summer (and there is no reason to think that they will not) they could have had a significantly negative impact on my family (e.g. sickness).

I intend to email both my senator (Greg Gregory) and representative (Ralph Norman) as well as the governor about this latest incident. In my opinion it is time for DHEC to step in and (at the very least) levy a significant fine on Tega Cay Water Services. I am outraged that this company has been allowed to continually pollute one of our most valuable natural resources with no action from the government bodies that are supposed to maintain oversight to them.

Tim Bradberry
